

**“If you develop a passion for learning, you will never cease to grow.”**

Competitions and academic activities that go beyond the text books and the classrooms encourage and foster a healthy and competitive spirit and effective communication skills in students. Various in-house activities and competitions were organized from time to time virtually for the students. Some of these events included slogan writing, debates, poetry recitation, maths, quiz, fancy dress, best out of waste competitions and many more. Certificates were awarded to the winners.

We successfully organized our annual inter-school event ‘TARANA’ in August 2021. Around 20 schools from the vicinity participated in various events.

The Covid-19 pandemic could not dampen our spirits. To foster national integration, international understanding, religious and cultural awareness and tolerance, various national, religious and cultural festivals and occasions were celebrated with due pomp and grandeur.

Our institution strives to spread awareness among students about the various issues that are being faced by our planet regarding our environment and also fosters an eco-friendly environment in and around the school campus. With this objective, Eco-club consisting of volunteer group of students and teachers, who promote working towards the conservation and sustainability of environment, was introduced in school. The Eco-club organized various events and activities like slogan writing, poster making etc on Earth Day. The volunteers of the Eco club also participated in Plantation Drive. Various saplings brought by students were planted in and around school. The green belt in vbps Dwarka is maintained through the plantation drive inside and outside the campus. Rain water harvesting system was also installed in the school premises which enlightens our students about the need of conservation of water and also to encourage an environmentally responsible attitude in the next generation.

Keeping ourselves up with the pace of the modern world, complete digitization of the school was undertaken. I feel highly elated to share that we at VBPS Dwarka started with e-portal facility, implemented ERP system, SMS facility, online report cards and fee collection by ERP software in the year 2020. ERP has now become a crucial part of effective management

of our institution. Parents can keep a real-time track of the status of their child for daily attendance, fee status, periodic test and term exam result, school circulars and news through the ERP.
