

Clay Modelling Competition

L.KG (Intra Class) 24-09-2021

An intra class 'Clay Modelling' competition was conducted for L.KG on 24-09-2021. The tiny tots enthusiastically participated in it and made their own beautiful 3-dimensional clay models on the topic 'household objects' and displayed them with pride. The objective of the competition was to develop the imagination and creativity of children. It also enhanced their eye- hand co-ordination, colour recognition and fine motor skills.
