Report on Coding Workshop

A Inter Branch workshop on Coding was conducted at Vishwa Bharati Public School, Noida on 31st July 2021, which was attended by hon'ble Vice President, hon'ble Secretary, worthy Principal's and participant teachers from each Branch (i.e., Dwarka, Ghaziabad, Noida and Greater Noida) of Vishwa Bharati Fraternity.

Prior to above Inter Branch workshop, I participated in a Touch Code-coding workshop, organized by Orange Publications from 22nd June to 10th July, where they explained interface and taught few applications based on three software's i.e., Scratch, MIT App Inventor and Python.

Based on my participation in Touch Code-Coding workshop and as per directions and guidance of worthy Principal ma'am of VBPS, Dwarka, I prepared an App on Quiz i.e., Multiple Choice Questions using the MIT App Inventor Software. The principal ma'am gave me opportunity to present my application (coding) in Inter Branch workshop. My presentation was appreciated by all dignitaries present in the said workshop and also adjudged it as second best.
